AUDIT REPORT ON FINANCIAL STATEMENTS ISSUED BY AN INDEPENDENT AUDITOR

Translation of a report originally issued in Spanish. In the event of discrepancy, the Spanish-language version prevails

To the Board of Trustees of Fundación Educación y Cooperación:

Opinion

We have audited the financial statements of Fundación Educación y Cooperación (the Foundation), which comprise the balance sheet at December 31, 2021, the income statement, the statement of changes in equity, the cash flow statement, and the notes thereto for the year then ended.

In our opinion, the accompanying financial statements give a true and fair view, in all material respects, of the equity and financial position of the Foundation at December 31, 2021 and its financial performance and its cash flows for the year then ended, in accordance with the applicable regulatory framework for financial information in Spain (identified in Note 2 to the accompanying financial statements) and, especially, the accounting principles and criteria contained therein.

Basis for opinion

We conducted our audit in accordance with prevailing audit regulations in Spain. Our responsibilities under those regulations are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We are independent of the Foundation in accordance with the ethical requirements, including those related to independence, that are relevant to our audit of the financial statements in Spain as required by prevailing audit regulations. In this regard, we have not provided non-audit services nor have any situations or circumstances arisen that might have compromised our mandatory independence in a manner prohibited by the aforementioned requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Most relevant audit issues

Most relevant audit issues are those matters that, in our professional judgment, were the most significant assessed risks of material misstatements in our audit of the financial statements of the current period. These risks were addressed in the context of our audit of the financial statements as a whole, and in forming our audit opinion thereon, and we do not provide a separate opinion on these risks.

Fulfillment of the allocation of monetary and non-monetary aids

Description At December 31, 2021 under the 'Revenue from activities' caption, the Foundation has mainly recorded the revenue from child sponsor, partner and cooperator membership fees, revenue from promotions and sponsorships, and grants, donations and legacies received for an overall amount of 37,914 thousand euros. Additionally, as indicated in Note 18 to the accompanying financial statements, the Foundation has allocated 32,987 thousand euros to its foundational aims, of which, as disclosed in Note 17.5, 16,570 thousand euros correspond to aid granted directly to entities executing the projects in which the Foundation participates and which are recorded under the 'Aid granted and other expenses' caption. The accrual of these income and expenses is a key matter in their recognition, as is the allocation of contributions to the aims established in the Foundation's activity. Consequently, we have considered this area a most relevant audit issue.

Our response

Our audit procedures consisted, among others, in:

- ▶ Analyzing the procedures established by the Foundation for recognizing 'revenue from activities'.
- ▶ Reviewing the internal control implemented by the Foundation to analyze the allocation of contributions to the several projects.
- ▶ Doing substantive tests to verify the documentation on incurred expenses.
- ▶ Conducting analytical reviews of the main accounts involved.
- ▶ Reconciling the Foundation's revenue with the aid received in the main recipient countries.
- ▶ Circularizing all banks with which the headquarters and branches operate.
- ▶ Reviewing all bank reconciliations at year end.

Measurement of financial investments

Description As detailed in Note 11 to the accompanying financial statements, at December 31, 2021 the Foundation has recorded under the 'Non-current financial investments' caption equity instruments, debt securities and other financial assets for an amount of 37,899 thousand euros and under the 'Current financial investments' caption debt securities and other financial assets for an amount of 2,399 thousand euros. Given the significance of the aforementioned balances to the assets as a whole, the measurement of financial investments has been considered a most relevant audit issue.

Our response Our audit procedures consisted, among others, in:

- ▶ Analyzing the procedures established by the Foundation for measuring financial investments.
- ▶ Performing internal control procedures over a random sample of additions and disposals for the year.
- ▶ Verifying the measurement of all related financial instruments at year end, mainly through bank responses and, where appropriate, through information supplied by renowned financial reporting providers.

Trustees' responsibilities for the financial statements

The trustees are responsible for the preparation of the accompanying financial statements so that they give a true and fair view of the equity, financial position and results of the Foundation, in accordance with the regulatory framework for financial information applicable to the Foundation in Spain, identified in Note 2 to the accompanying financial statements, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the Foundation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Trustees either intend to liquidate the Foundation or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with prevailing audit regulations in Spain will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with prevailing audit regulations in Spain, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the trustees.
- ▶ Conclude on the appropriateness of the trustees' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the entity's trustees regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the significant risks communicated with the entity's trustees, we determine those that were of most significance in the audit of the financial statements of the current period and are therefore the most significant assessed risks.

We describe those risks in our auditor's report unless law or regulation precludes public disclosure about the matter.

FUNDACIÓN EDUCACIÓN Y COOPERACIÓN (EDUCO)

Notes to the consolidated Financial Statements 2021

1. CONSTITUTION AND ACTIVITY OF THE FOUNDATION

FUNDACIÓN EDUCACIÓN Y COOPERACIÓN, hereafter "EDUCO", was constituted as a private foundation on 24 February 1994 under the name Fundación Privada Intervida and subsequently changed to its current name on 28 April, 2014.

It is classified as a charitable non-profit foundation and is registered as number 790 in the Register of Foundations of the Generalitat de Catalunya (Catalan Government), pursuant to the Resolution of 25 May, 1994 by the Department of Justice.

Since 2014 EDUCA has been a member of the international alliance ChildFund Alliance, made up of 11 NGDOs who carry out development projects focused on children (see Note 3.3).

EDUCA has been registered since 12 January 2001 with registry number 363 in the Register of the Spanish Agency for International Development Cooperation (AECID) as a Non-Governmental Development Organization (NGDO). In December 2020 EDUCA received recognition from the European Commission as an EU Humanitarian Partner for the European Agency for Humanitarian Aid (DG ECHO - European Civil Protection and Humanitarian Aid Operations) for the period 2021-2027.

Similarly, in order to create synergies, build bridges and engage in continuing dialogue with the different actors that share the common objective of children's wellbeing, EDUCA is a member of various organisations, platforms and working groups both internationally and locally. Among others, EDUCA is a member of Accountable Now, CHS Alliance (Core Humanitarian Standard), Keeping Children Safe, Global Compact, the Global Partnership to End Violence against Children, NGO Voice (European Humanitarian NGOs), CIVICUS, CoNGO (Conference of NGOs in Consultative Relationship with the United Nations), the Spanish NGDO Coordinator (CONGDE), the Spanish Fundraising Association (AEFr), and the Plataforma de Infancia (Platform for Children) in Spain. In 2022, EDUCA also became part of the Humanitarian Emergency Committee, a group of 6 Spanish NGOs working internationally and focused on responding to emergencies and humanitarian crises.

Additionally, EDUCA is accredited by the entity Fundación Lealtad for good governance, efficiency in the use of resources and consistency in the missionary purposes of its activity.

EDUCA is governed for legal purposes by that established in Title III on Foundations by the Spanish Law 4/2008 of April 24, from the third volume of the Civil Code of Catalonia, concerning legal entities, which came into effect on August 2, 2008; by the Spanish Law 5/2001 of May 2 for Foundations by the Catalan Parliament (for all of that which is not repealed in the Law 4/2008 previously mentioned); and for tax purposes by the Spanish Law 49/2002 of December 23, on the Tax Regime for non-profit organisations and tax incentives for patronage.

EDUCO has its registered office and tax address in Barcelona, Calle Guillem Tell, 47, and its Tax Identification Code (CIF in Spanish) is G60541554. Educo has territorial representation offices in Madrid, Barcelona, Seville, A Coruña, Valencia and Bilbao.

Art. 5 of the EDUCO Statutes establish that EDUCO is a non-profit organisation, exempt from any lucrative or profit-making purposes, the equity, return and resources of which are permanently allocated to the fulfilment of the following general-interest purposes:

- Aid to the Third World in all its forms.
- Aid, in all of its forms and types, to people and groups living in absolute or emerging marginalization and at risk of social exclusion and, in particular, actions aimed at providing education, training and protection to children and young people.
- The fight against poverty and inequality, encouraging individual or collective co-responsibility in activities that foster critical awareness and better perception of society's actual problems, boosting solidarity, active cooperation and promoting volunteering.
- The fight against social exclusion and improvement in the living conditions of underprivileged people and groups, contributing to all aspects of human development.
- The promotion of economic and social human development allowing people to grow in an equal and sustainable manner, working to fight against and reduce vulnerability and social exclusion situations.
- Development cooperation and international solidarity in all fields, and the performance of any activity that encourages, achieves and improves them.
- Protect, encourage, support and finance, both using its own funds and those of third parties, all types of educational, social welfare, sociocultural and research activities related to marginalised, vulnerable and underprivileged people and groups aimed at fixing the problems that affect them.
- Protect, promote, support and finance, both using its own funds and those of third parties, the work of other foundations, associations, legally recognised collectives and even individuals are dedicated to similar and analogous purposes to those of this Foundation.
- Humanitarian aid in emergency situations.
- Awareness-raising and education to enable the development of the population included in the scope of action, especially children and young people, in relation to solidarity and cooperation between people, working to make society more supportive and committed.

EDUCO recognises and defends the richness of human diversity as an indispensable value for social cohesion, peace and human dignity. Its action is oriented towards greater justice in social agreements and the promotion of people's abilities to exercise their freedoms. It works for the common good, understood as a collective construction of which we are all subjects and responsible for, which promotes fair and supportive relationships between people, individuals and cultures, in defence of human dignity.

The fulfilment of the aforementioned foundational purposes is carried out through projects developed through the EDUCO branches in the different countries it operates in (see Note 3.1), either through direct implementation or through independent local organisations that have signed collaboration agreements with EDUCO (see Note 17.5.4). In the countries in which EDUCO does not have a direct presence, the foundation's purposes are pursued either through related organisations (see Note 3.3) or through other independent executing organisations.

During the tax year 2021 EDUCO has implemented development projects in the following 14 countries:

- America: Bolivia, El Salvador, Guatemala and Nicaragua.
- Asia: Bangladesh, Cambodia, the Philippines and India.
- Africa: Benin, Burkina Faso, Mali, Senegal and Niger.
- Europe: Spain.

Through the organisation WeWorld, which belongs to Childfund Alliance, two additional projects have been funded, one in Ethiopia and the other in Afghanistan.

In all the countries, the foundation works with children and young people, and the adults that accompany them, in order to promote fair and equitable societies which guarantee the rights and wellbeing of children and young people, in an attempt to achieve a world in which they fully enjoy their rights and lead dignified lives. In 2021, EDUCO has developed, either directly or through local partners, 148 projects, which have reached more than 3600 schools and 5500 communities. More than 927 thousand children and adolescents have participated in these projects (53% of which were girls) and more than 1853 thousand adults (56% of which were women).

The board, at the date of preparation of these annual accounts, is made up of:

| • Vice Chair: | Inmaculada Barral Viñals |
| • Member: | Juan Luis Gimeno Gómez-Lafuente |
| • Member: | Héctor Litvan Suquieni |
| • Member: | Ana M. Gibert Casasayas |
| • Member: | Marcos Mas Rauchwerk |
| • Member: | Anna Forés Miravalles |
| • Non-member Secretary: | Ferran Olmedo Cano |

On 30 June 2021, Anna Forés Miravalles joined Educo's Board of Trustees as a member. Up until these financial statements were prepared no further variations to the board have taken place.

2. GUIDELINES FOR PRESENTING THE FINANCIAL STATEMENTS

The figures contained in all the documents making up these annual accounts are expressed in thousands of euros, unless otherwise stated.

Effects of the COVID-19 pandemic on the Foundation's activity

Up to the date of presentation of these annual accounts, and in the two previous years, the COVID-19 pandemic has not had a significant impact on the Foundation's activity. According to the Board of Trustees' current estimates, no significant effects are expected in the financial year 2022.

Effects of high inflation rates on the Foundation's activity

Up until the date of presentation of these annual accounts, the high inflation rates that have been occurring since November 2021 are not having a significant impact on the foundation's activity. According to the Board of Trustees' current estimates, no significant effects are expected in the financial year 2022.

2.1. True and fair view

The financial statements have been prepared from the accounting records of EDUICO and its branches abroad (see Note 3.1), and comply with the *Accounting Plan for Foundations and Associations* subject to the Generalitat de Catalunya legislation, approved by Decree 259/2008, of 23 December, modified by Decree 125/2010, of 10 September, and other existing legal provisions for accounting, in order to provide a reliable picture of the equity, the financial situation and the results obtained by EDUICO, as well as the flows incorporated in the cash flow statement.

The EDUICO financial statements bring together the full range of activity in Spain, with the assets, liabilities and transactions carried out in the organisations' branches overseas (see Note 3.1).

2.2. Accounting principles

The annual accounts have been prepared in accordance with generally accepted accounting principles, including the principles of continuous management, accruals, consistency, prudence in valuation, non-compensation and materiality.

2.3. Critical aspects of the assessment and estimates of uncertainty

The preparation of the financial statements obliges EDUICO to use certain estimates and judgements in relation to the future which are continuously evaluated and are based on experience in the past and other factors, including expectations about future events which are considered reasonable under the estimated circumstances.

The resulting accountancy estimates, by definition, are rarely the same as the corresponding real results. Any future modification of these estimates would be applied prospectively from that date, as well as acknowledgement of the effect of that change in the estimate made in the income statement for the year in question.

The main estimates and judgements considered in the elaboration of these financial statements are as follows:

- Useful life of fixed assets. The EDUICO management will determine the estimated useful life and the related depreciation charges for fixed assets (see Notes 5.1, 5.2 and 5.3). This estimate is based on the projected life cycles of the assets. These estimates could change as a result of technical innovations or a more intensive use of the assets. The EDUICO management will increase the amortization charge when the useful life is less than the life estimated previously or will depreciate or dispose of technically obsolete or non-strategic assets that have been abandoned or sold.

- Contingent liabilities. The EDUCA management carries out an evaluation of the possible contingent liabilities. Those whose materialisation is conditioned by events that are not considered likely to occur, in which case in accordance with the regulatory framework applicable to EDUCA, they are not registered for accounting purposes and are detailed in Note 21 of the report. The contingent liabilities whose materialisation is considered likely are subject to being recorded in the accounts.

2.4.Comparison of information

EDUCA presents its financial statements for the tax year in comparison to those of the previous tax year, and there is nothing to prevent an adequate comparison. It has not been necessary to adapt any of the figures from the previous year to make them comparable with the current year.

2.5.Grouping of entries

In order to facilitate comprehension of the balance sheet, the income statement, the statement of changes in equity and the cash flow statement, these statements will be presented as grouped entries, and the required analysis will be made in the relevant *Notes* section of the report.

When the aggregated magnitudes are significant, as well as in order to comply with the legal requirements detailed in Note 16.3, appropriate details are provided according to the origin of the aggregated figures.

2.6.Items included in several entries

There are no asset and liability items in the balance sheet of the current or previous financial year that are recorded in several balance sheet entries.

2.7.Changes in accounting criteria

No adjustments have been made due to changes in accounting criteria in the current tax year or the preceding one.

2.8.Correction of errors

No corrections of errors in the balances from previous tax years have been made in this tax year or in the preceding one.

3. BRANCHES AND ASSOCIATED AND RELATED ORGANISATIONS

3.1.Branches

EDUCA, with due authorisation from local governments to undertake development work, has branches which are established as permanent establishments without independent legal status in the following countries:

Bangladesh	Guatemala
Benin	India
Bolivia	Mali
Burkina Faso	Nicaragua
El Salvador	Niger
Philippines	Senegal

The EDUCA projects in Cambodia are managed, since 1 July 2017, through ChildFund Cambodia, a branch of ChildFund Australia (related organisation, see Note 3.3), in accordance with the collaboration agreement signed on 25 May 2017 which was renewed for another three years on 28 June 2021 until 2024.

The financial statements of the branches have been audited by the auditing firm Ernst&Young for the purpose of expressing an opinion on the EDUCA consolidated financial statements. In addition, audits of individual financial statements are carried out in all countries where there is a local requirement.

3.2. Organisations belonging to the group

Asociación Educación sin Fronteras (hereafter, ESF), has been in liquidation since 22 September 2015, when the Extraordinary General Assembly agreed to dissolve it. Until 2018 it was part of a group with Educo because they share the same decision-making unit, as their Liquidation Board is made up exclusively of members of the Educo Board. ESF maintains an exclusive financial dependence on Educo, with no employees of its own and with no activities to date other than those projects that have already been completed but which are still undergoing a review of the justification of a grant, or which have not yet reached the expiry date.

On 9 December 2021, ESF signed the acceptance of the will of Don Luis Martínez Alonso, naming the entity as universal heir of all assets, rights and shares, present and future legacies. On 29 December 2021, and given the situation mentioned in the previous paragraph, a free transfer of ESF surplus assets is signed before a notary in favour of Educo, whereby the assets become the property of the Foundation.

On 29 December 2021, a donation by ESF to Educo is registered for the total value of the fixed assets bequeathed to a total value of 217,646.00 euros.

The main magnitudes of ESF, on liquidation, according to its financial statements on 31st December in 2021 and 2020 are:

(en miles de euros)

3.3. Other related organisations

On 12 November 2014, EDUCAO became a member of the international alliance ChildFund Alliance, an international alliance of 11 NGDOs (including EDUCAO) which focus on working for children, working in more than 60 countries to implement lasting and significant changes for children and their families by developing sustainable development programs in areas affected by war, natural disasters, poverty or worldwide health problems. Each member of the organisation promotes the sponsorship of children as an integral focus for their development.

The alliance establishes global norms which guarantee the responsibility of its members to maintain a high level of quality and integrity in project planning, finances, fundraising and governability.

The alliance is managed by the legal entity ChildFund Alliance, constituted in the United States as a non-profit, non-stock corporation.

The remaining 10 organisations that are part of the alliance alongside EDUCAO:

- ChildFund Australia
- ChildFund International (United States)
- ChildFund Japan
- ChildFund New Zealand
- Un Enfant Par La Main (France)
- WeWorld (Italia)
- ChildFund Deutschland (Germany)
- ChildFund Korea
- Barnfonden (Sweden)
- Children Believe (Canada)

4. APPLICATION OF THE RESULT FOR THE FINANCIAL YEAR

The application of the result for the financial year formulated by the Board is as follows:

BASE DE REPARTO	
Excedente del ejercicio	<u>(799)</u>
APLICACIÓN A	
Remanente	<u>(799)</u>
TOTAL	<u>(799)</u>

5. RULES FOR RECOGNITION AND MEASUREMENT

The main registration and valuation rules, as well as the most significant accounting criteria and practices contained in the specific accounting legislation applicable to foundations, and applied in the preparation of these annual accounts, are described below.

5.1. Intangible fixed assets

An intangible asset is initially measured by its cost, either the purchase price or the production cost. Subsequently, it is measured by its cost minus any accumulated amortization and, where applicable, the cumulative amount of any recorded impairment.

At the end of each tax year, an assessment will be made to evaluate indicators of impairment. If any such impairment exists, the recoverable amount will be estimated, and the necessary valuation corrections made. Impairment adjustments occur when the useful life of an asset is shorter than previously estimated, either because of technical obsolescence or because of a fall in market value.

5.1.1. Trademarks

This heading includes the acquisition costs of the registering of trademarks and logos related to its activity. The depreciation of these costs is calculated using the straight-line method at an annual rate of 25%.

5.1.2. Software

Computer software incorporates the costs incurred in the acquisition and development of, or the right to use, the various computer programs used to manage the organisation, as well as the costs of adapting and improving these programs or applications.

The depreciation is calculated using the straight-line method based on the estimated useful life of 4 years.

5.2. Tangible fixed assets

Tangible fixed assets are valued initially by their purchase price. Subsequently, they will be measured by their cost minus any accumulated amortization and, where applicable, the cumulative amount of any recorded impairment.

Indirect taxes on tangible fixed assets should only be included in the purchase price or production cost when they are not recoverable directly from the Spanish tax authorities.

The purchase price includes, in addition to the amount invoiced by the seller after the deduction of any discount or rebate on the price, all additional and directly related costs incurred until it is put into working order, including on-site placement and any other conditions necessary to enable it to operate as intended; *inter alia*, costs of site clearance and transport, customs duties, insurance, installation, assembly and the like.

In order to determine the production cost, the established general criteria for determining the cost of inventories are applicable.

Fixed assets received as a non-cash contribution must be valued at their fair value at the time of the contribution.

The costs of renewal, expansion, modernisation or improvement that do not represent an increase in productivity, capacity or efficiency or a lengthening of the useful life of the goods, are treated as expenditure in the corresponding tax year.

Depreciation is calculated according to the estimated useful life of the element using the straight-line method starting from the date it was put into operation, and according to the following depreciation rates:

Buildings and constructions	1,5%
Technical installations	10%
Machinery	10%
Other installations and implements	12.5%
Furniture	12.5%
Computer equipment	25%
Transport elements	25%
Other tangible fixed assets	10%

The conservation and maintenance expenses must be put in the income statement for the tax year in which they are incurred.

The impairment loss of the value of a tangible fixed asset is registered when its net accounting cost is higher than its recoverable cost, this being understood as the maximum amount between its fair value minus its selling price and use value.

5.3. Property investments

Investment property includes buildings which are owned and held to earn long-term rentals, and are not occupied by the entity. The elements included in this item are valued at their acquisition cost

minus any corresponding cumulative depreciation and accumulated impairment losses they may have experienced.

To calculate the depreciation of buildings and constructions related to property investment a straight-line method is used based on the years of useful life estimated based on a ratio of 1.5%.

5.4. Leases

The entity has no financial lease contracts, understood as leases in which the economic terms imply that all the risks and rewards incidental to ownership of the leased asset are substantially transferred to the lessee.

The payments for operational leases should be registered as expenses in the income statement when they are accrued.

5.5. Financial instruments

The entity has financial assets of the following nature:

- Cash and demand deposit accounts.
- Credits for users and debtors for operations related to the activities.
- Loans to third parties.
- Equity instruments belonging to other entities.
- Other financial assets such as: time deposits with credit institutions, debt securities, staff advances, guarantees and deposits.

The entity has financial liabilities of the following nature:

- For business operations: debts to suppliers, creditors and staff.
- Debts with credit institutions (credit card payments).
- Debts that can be converted into grants, donations and legacies.
- Bonds and deposits received.

The criteria used for the qualification and valuation of the different categories of financial assets and liabilities, as well as the recognition of changes in their fair value and corrections due to impairment loss, in which case, registration of derecognition and the recognition of the income or expenses related to the different categories, are as follows:

5.5.1. Classification and assessment of the categories of financial assets and liabilities:

The financial assets and liabilities are presented in the balance sheet as current or non-current, taking into account the time period predicted for their reimbursement or settlement. Non-current is when the expiry date in question is more than one year after the date of the end of the tax year.

The financial assets and liabilities maintained with organisations from the group, associates and related parties are shown separately in the balance sheet.

5.5.1.1. Assets at depreciated cost

Included in this category are trade and non-trade receivables, with fixed or determinable payments, which are not traded on active markets and for which the entity expects to recover the full initial investment, except in cases related to the solvency of the debtor. In particular, this includes: cash and demand deposit accounts, credit to users and debtors for operations related to the activities, loans to third parties, fixed-term deposits with credit institutions, temporary financial investments, staff advances, and bonds and deposits.

The latest amendment to the Spanish National Chart of Accounts also includes those assets that the company holds in order to receive the cash flows arising from the performance of the contract and the contractual terms of the financial asset give rise, at specific dates, to cash flows that are solely collections of principal and interest on the outstanding principal amount (formerly held-to-maturity investments). If the entity sold more than an insignificant amount of held-to-maturity investments before maturity, the complete category would be reclassified as available for sale.

They are initially measured at fair value plus directly attributable transaction costs. Trade receivables maturing within one year that do not have an explicit contractual interest rate, as well as receivables from staff, receivable dividends and payables on equity instruments that are expected to be received in the short term, can be measured at nominal value when the effect of not discounting the cash flows is not material.

Subsequently, they are measured at depreciated cost, which is the initial value, minus any repayment of the original amount, plus or minus, as appropriate, the portion of the difference between the initial value and the repayment value at maturity, and minus any recognised impairment loss.

However, the credits for commercial operations with maturity dates of under a year, and that do not have a contractual interest rate, are valued initially and subsequently at nominal value, when the effect of not updating the cash flows is not significant.

Credits to third parties as loans that do not have a contractual interest rate are valued at the current value of the amount to be reimbursed applying an appropriate discounted rate. Implicit financial interest, calculated by the difference between the current value and the nominal value to be reimbursed, are recognised in the income statement of the tax year they are accrued in.

Guarantees and deposits are measured at nominal value.

5.5.1.2. Financial assets at fair value with changes in the profit and loss account

Financial assets at fair value with changes in the income statement include all assets held for trading that are acquired for the purpose of being sold in the short term or are part of a portfolio of instruments identified and jointly managed for short-term profit, as well as financial assets that the entity designates at the time of initial recognition for inclusion in this category because they result

in more relevant information. Hedging instruments and financial guarantee contracts are not classified as held-for-trading.

These financial assets are measured, both in their initial recognition and subsequent measurement, at fair value, with any changes in this value being recognised in the income statement for the year. Transaction costs which are directly attributable to the acquisition are recognised in the income statement for the year.

An organisation cannot reclassify any financial asset initially included in the held-for-trading category to other categories, or from those categories to other categories, except when the asset qualifies as an investment in the equity of the organisations of the group, jointly controlled organisations or associates.

5.5.1.3. Financial assets at cost

This group includes investments in companies of the group, jointly controlled organisations and associates, recorded in the individual accounts, as well as equity instruments for which a reliable estimate of their fair value cannot be obtained.

These are measured by their cost minus where applicable, the cumulative amount of any recorded impairment. However, when an investment was made prior to their classification as group or associated entity, the cost of investment is regarded as the carrying amount before its classification. Pre-existing value adjustments recognised directly in net equity are maintained in equity until they are derecognised.

When there is objective evidence that the carrying amount is not recoverable, the appropriate impairment losses should be made for the difference between the book value and the recoverable amount, the latter being the fair value minus selling costs and the current value of the cash flows arising from the investment, whichever is higher. Unless there is better evidence of the recoverable amount, the estimated depreciation of these investments takes into account the net equity of the subsidiary corrected for existing tacit gains on the measurement date. The impairment loss and, where applicable, its reversal is recorded in the income statement for the year.

5.5.1.4. Financial liabilities at depreciated cost

This heading includes the financial liabilities generated by the purchase of goods and services arising from trade transactions. In particular, this includes: debts to suppliers, creditors, staff, and financial institutions for credit card payments.

They are initially registered at fair value, which coincides with the value of the transaction. Subsequently they are measured by their amortised cost. However, the debts for operations with maturity dates of under a year, and that do not have a contractual interest rate, are valued at their nominal value, when the effect of not updating the cash flows is not significant.

5.5.2. Impairment and value adjustments

The entity corrects the carrying amount of financial assets by making a provision charged to the income statement when there is objective evidence that an impairment loss has occurred.

For debt instruments, understood as receivables, credits and values that represent debt, there is objective evidence of impairment when, after initial recognition, an event occurs that has a negative impact on the predicted future cash flows. In particular, when there are unpaid balances, non-compliance issues, refinancing and data which evidences the possible non-recoverability of total agreed-upon future cash flows or there is a delay in their payment. The reversal of impairment is recognised as income in the profit and loss statement and its limit is the carrying amount of the financial asset which should be registered alongside the reversal date if the impairment has not been registered previously.

In the case of equity instruments, there is objective evidence of impairment when, after initial recognition, an event or combination of events occurs which will probably not be recovered in the accounts.

5.5.3. Registering derecognition or cancelation of financial assets and liabilities

Financial assets are derecognised from the entity's statement upon repayment or when the contractual rights expire or when they are transferred, as long as in said transfer the risks and benefits inherent to ownership are substantially transmitted.

Financial liabilities are derecognised when the obligation has expired.

5.5.4. Recognition of income and expenses deriving from financial instruments

The interest from financial assets, in the event of a contractual interest rate, is imputed in the income statement for the tax year in which they are accrued.

The income from dividends is registered in the moment the right to receive them is recognised.

5.6. Inventories

Inventories are measured at the acquisition cost, in accordance with the weighted average cost formula (WAC).

The acquisition price includes the amount invoiced by the seller after deducting any discounts, rebates or other similar items, as well as interest incorporated in the nominal amount of debits (except <1 year), and any additional costs incurred until the assets are ready for sale, such as transport, customs duties, insurance and other costs directly attributable to the acquisition of the inventories.

If the actual net value is lower than the acquisition price, a value adjustment is made, assigning the corresponding provision in the income statement.

5.7. Transactions in foreign currency

A foreign currency transaction is a transaction in which the amount is denominated or requires settlement in a currency other than the euro. Transactions are differentiated according to whether or not they affect different assets and liabilities. Therefore, we have:

a) Monetary items: these refer to cash, as well as assets and liabilities to be received or paid in a specific or determinable amount of monetary units. It includes, among other things, loans and receivables, payables and receivables, and investments in debt securities that meet the above requirements.

b) Non-monetary items: these are the assets and liabilities that are not considered to be monetary items. These include, among others, tangible fixed assets, investment property, intangible fixed assets, inventories, investments in the assets of other entities that meet the above requirements, as well as advance payments on purchases or sales.

The purchase of goods or services in foreign currency is recorded using the exchange rate on the date of the purchase, and the positive or negative exchange rate difference in the transaction between the exchange rate of purchase and the exchange rate of payment.

Monetary items in foreign currencies will be subject to a monthly adjustment of the positive or negative difference according to the official exchange rate at the end of each month. At the end of the financial year, they are also valued at the end-of-year exchange rate.

The differences in exchange rate in other balances in foreign currency, mainly the balances of assets and liabilities of the branches included, will only be recognised at the end of the financial year.

The exchange rates at the end of the financial year used for the conversion of balances and information in foreign currency for the present annual accounts are:

The income statements for the different branches have been aggregated using average exchange rates, calculated on a monthly basis, for the corresponding periods.

5.8. Taxes on profits

EDUCO has adhered to, in order to comply with the established requirements, the tax benefits established in Spanish Law 49/2002, of 23 December, on the Tax Regime of Non-Profit Entities and the Tax Incentives for Patronage, by which the following income is considered exempt from taxation:

- donations received to collaborate in the purposes of the entity, including those received as a founding endowment at the time of its incorporation or thereafter,
- membership fees paid by members, collaborators or benefactors,
- the grants aimed at collaborating with the purposes of the entity,
- income from the tangible and intangible assets of the entity, such as dividends and shares in the profits of companies, interest and rents,
- those arising from acquisitions or transfers of assets,
- those from economic operations that are merely auxiliary or complementary to the activities aimed at fulfilling the purposes of the entity, provided that the net turnover for the year corresponding to all of them does not exceed 20% of the entity's total income.

5.9. Income and expenses

Both monetary aid received and aid awarded for the delivery of projects, and formalised by funding agreements or public grants, should be recognised in the income statement in accordance with the type of project funded and its purpose.

Grants and donations will be accounted for based on whether these are:

- **Refundable:** those grants that are linked to conditions established for their concession. That is to say, those that, in the agreement or concession agreement, the purpose is perfectly individualizable and identifiable in the obtaining of a tangible good or a specific, determined, individual and easily measurable purpose. This type of grant or donation shall be entered as a liability until it meets the criteria for classification as non-refundable. Specifically, the conditions will be understood as met when:
 - a) Grants obtained to acquire an asset will only be classified as non-refundable when the asset has been acquired.
 - b) Grants received for the building, improvement, renovation or extension of an asset shall be classified as non-refundable when the asset has been when it has been put into service or handed over to beneficiaries.
 - c) Grants received for funding specific expenses over the course of multiannual implementation, at the end of the activities financed. This funding will be recorded as income as the committed expenditure of the project is charged.
- **Non-refundable:** those grants that are not linked to conditions established for their concession. In this case:
 - a) Those received for a purpose which is perfectly individualizable, identifiable and easily measured (a tangible asset or specific purpose), that is not linked to the purpose of the grant or donation, will be accounted for directly in the entity's net equity for subsequent reclassification as surplus

income for the financial year, according to a systematic and rational basis correlated with the derived expenses.

- b) Grants received without assigning a specific purpose will be accounted for directly in the surplus of the financial year in which they are recognised.

If the clauses of the agreements are not complied with, the entity will backdate the recognition of income or expenses, as the case may be, at the time when the non-compliance is established and the aid received or donated is reclaimed.

The remaining income has been entered in the income statement in accordance with the following criteria:

- Sponsorship payments and periodical donations received as direct debits are entered as income on the date on which the bank remittance is credited, coinciding with the period in which the income is accrued. Donations received via other means are recognised on the date they are received. Returned unpaid direct debit payments are recognised on the date on which the communication of the incident is received from the bank, and at the end of the financial year an estimate is made of the receipts that may remain unpaid, and a provision should be registered when the estimated amount is significant.
- Income from the sale of goods and the provision of services is measured at the fair value of the consideration received or receivable, which, in the absence of evidence to the contrary, is the agreed price for the goods or services, after deducting the amount of any discounts or rebates. Income from the sale of goods is recognised at the time of delivery of the goods. For services provided, income is recognised when the outcome of the transaction can be reliably estimated, based on the percentage of completion at the end of the financial year.
- Financial income and other incomes are basically recognised according to the accrual principle, carrying out, at the end of the financial year, the corresponding accrual calculations.

The remaining expense and income concepts have been entered in the profit and loss statement in accordance with the accrual principle, irrespective of when the resulting monetary or financial flow takes place.

5.10. Provisions and contingencies

Liabilities that are uncertain as to their amount or as to the date on which they will be settled are recognised in the balance sheet as provisions, when the entity has a current obligation that arises from past events, and it is considered likely that an outflow of resources will be required to settle the obligation and that is quantifiable.

Contingent liabilities are those possible obligations that arise from past events and whose realisation is conditional on the occurrence or non-occurrence of future events beyond the control of the entity. These contingent liabilities are not subject to registration in the accounts, instead they should be detailed in the activity report (see Note 21).

5.11. Transactions with branches, associated and related entities

Transactions with these entities are recorded in accordance with the valuation standards detailed previously, and basically correspond to the transferring of funds to the entities that will carry out the projects funded by the entity.

It is a policy of the Foundation to transfer funds at the beginning of the month to cover commitments acquired or budgeted for the current month, in an attempt not to generate reserve funds in the branches or in the associated entities specified previously in Note 3.

5.12. Cash and other equivalent liquid assets

This heading includes cash in hand, current accounts and bank deposits which fulfil the following requirements:

- They can be converted into cash.
- They mature within less than three months from the acquisition date.
- They are not subject to significant risk of change in value.
- They make up a part of the entity's standard cash management strategy.

5.13. Loans to employees

5.13.1. Pension commitments

The commitments to contribute to pension plans held by the organisation in favour of its employees are recorded in accordance with the labour regulations in force in the respective countries and of the following nature:

- Defined contribution plans. Those in which EDUCA makes fixed contributions to a separate organisation (such as an insurance company or a pension plan), and has no implicit, legal or contractual obligation to make additional contributions if the separate organisation does not have enough assets to cover the liabilities it assumed. Contributions are recognised as an expense as they are accrued and only give rise to a liability for long-term employee benefits when accrued contributions remain unpaid at the end of the financial year.
- Defined benefit plans. Pension schemes which do not have defined contributions are considered defined benefit schemes. Generally, defined benefit schemes establish the benefit amount the employee will receive at the time of retirement or on leaving the organisation, normally depending on one or more factors such as age, years of service and remuneration. In this case, the amount to be recognised as a provision for long-term employee benefits is the difference between the present value of the committed benefits and the fair value of any assets assigned to the commitments with which the obligations will be settled. In order to estimate the current value of committed defined benefits, unbiased and mutually compatible actuarial calculation methods and financial and actuarial assumptions must be used. Variations in the calculation of the current value of committed post-employment benefits or, where applicable,

of the related asset at the end of the financial year due to actuarial gains and losses must be recognised directly in equity in the year in which they arise and be recognised as reserves.

5.13.2. Compensation for dismissal

Compensation for dismissal is paid to employees as a consequence of the Foundation's decision to terminate their contract before the normal age of retirement or when the employee agrees to resign voluntarily in return for compensation. The organisation recognises this compensation when it has made a demonstrable commitment to terminating the employment of the employees in accordance with a formal detailed plan which cannot be reversed or to provide compensation for dismissal as a consequence of an offer to encourage a voluntary resignation. This is also the case if so indicated by local regulations, even if there is no collective redundancy or resignation plan (see Note 13).

5.14. Environment

The amounts deriving from initiatives carried out, or to be carried out, to manage the effects of the entity's activity on the environment are considered operating costs for the financial year in which they are accrued.

Items included in the entity's assets intended to be used on a long-term basis in its activity, and whose main objective is to minimise the environmental impact and to protect and improve the environment, are recorded under the corresponding tangible or intangible fixed asset headings at acquisition or production cost and are amortised in accordance with the criteria established for fixed assets.

5.15. Financial risk management

The activities of the entity are exposed to various financial risks: market risk (including exchange rate risk, and interest rate risk), credit risk, and liquidity risk. The entity's global risk management program observes financial market uncertainty and attempts to minimise potential adverse effects on its financial profits.

Risk management is controlled by the entity's management, which identifies, evaluates and hedges financial risks in accordance with management policies to minimise or fully mitigate them.

5.15.1. Market risk

- Exchange rate risk. The entity operates internationally and is therefore exposed to exchange rate risks with regards to foreign currency transactions. Foreign exchange risk arises from the holding of cash in the various currencies used in the countries in which the entity operates, as well as from committed monetary assistance and recognised assets and liabilities.
The entity's management has established a risk management policy for exchange rates between foreign currencies and the functional currency. The strategy for hedging foreign

currency risk in transactions other than the entity's functional currency aims to reasonably hedge these risks, and no derivative financial instruments are arranged to manage these risks.

- Interest rate risk in cash flow and fair value. Interest rate risk in the entity is not significant given that it is not financed by external resources in the short or long term.

5.15.2. Credit risk

Credit risk arises from cash and cash equivalents, fixed term bank deposits and debt securities from financial or non-financial institutions, as well as outstanding receivables and committed transactions.

In relation to financial and non-financial institutions, the entity only works with verified solvent credit institutions with a moderate credit risk. This credit solvency is periodically reviewed.

In relation to debtors, if they have been independently rated, then these ratings are applied. If, on the other hand, they are not independently rated, then the credit quality of the debtor is assessed, bearing in mind their financial position, past experience and other such factors.

The entity's management does not expect credit losses to arise that are not already recognised in these financial statements.

5.15.3. Liquidity risk

The entity implements a prudent approach to managing liquidity risk, involving maintaining sufficient cash and financial assets in order to be able to meet the monetary aid commitments for the following financial years.

6. INTANGIBLE FIXED ASSETS

All related properties are free of liens and encumbrances and, at the date of preparation of these financial statements, there are no commitments signed with third parties or guarantees given on these assets, except for the following:

- The properties in Tiahuanacu (Bolivia) were granted, assigned and delivered to the Autonomous Municipal Government (GAM) of Tiahuanacu, within the framework of an inter-institutional cooperation agreement dated 18 October 2016, ratified in a document dated 22 September 2017, which aims to implement and set up a development programme in education called "Support programme for the improvement of education in the municipality of Tiahuanacu". On 31 December 2016 EDUCA recorded a provision for impairment of these assets of XX euros against the profit for the year. At the date of preparation of these financial statements, the legal transfer of these properties has not yet been completed.
- A commodatum agreement for the use of the properties located in Carabuco (Bolivia) until 31 December 2026, with the Fundación Virgen de las Nieves and for the delivery of professional training in the textile and carpentry sectors.
- A commodatum agreement for the cession of use of the rustic property located in San Julián (El Salvador), in favour of the Evangelical Church "The God of Israel" until 9 April 2024 (extendable), for the purpose of establishing a family and spiritual support centre to develop family support and recreational projects for children and adolescents.
- In reference to the land and constructions located in the El Alto municipality (Bolivia) on 16 June 2021 a settlement agreement was signed to cancel the purchase and sale agreement signed on 6 July 2017, and EDUCA will reimburse the 3,300 thousand US dollars advanced by the buyer and the indemnity amount of 300,000 US dollars indicated in the original contract. At present, the land and buildings in El Alto are free from charges and negotiations are underway with the municipality to sign a commodatum agreement to support the granting of the land for educational purposes.

11.1.Equity instruments

The breakdown of the investments in equity instruments at the end of the 2021 financial year relates to shares, held for trading, in the following companies:

	Coste inversión	Reembolsos prima emisión	Variación del valor razonable	Valor neto a 31/12/2021	Valor neto a 31/12/2020
Trajano Iberia SOCIMI, S.A.	5.000	(2.120)	420	3.300	3.375
Microsfot Rest.	1	-	(1)	-	-

Kanjo Emotion	30	-	-	30	30
Total	5.032	(2.120)	420	3.330	3.405

Participation in Trajano Iberia SOCIMI, S.A. refers to an investment carried out during the 2015 financial year, in order to maintain the Foundation's assets while ensuring liquidity through dividends.

The shareholding in Microsoft Rest. corresponds to 36 shares with a nominal value of 29 USD from a bequest. These shares are subject to certain restrictions on their transferability and are impaired in their entirety.

Interest in the company Can Valls 2000, S.L., from the real estate sector, come from the asset absorbed as a result of the merger carried out in 2013 with Fundación Privada Cuna, a former entity that was part of a group with EDUCA. These shares have been impaired in their entirety due to the equity deficit presented in the financial statements of this entity.

Participation in Kanjo Emotion is an investment without a financial profitability objective and more linked to EDUCA's social purposes. Kanjo has developed an application for monitoring children's emotions that can be easily implemented in schools for the early detection of cases of risk and requiring special attention.

The changes in equity instruments during the current and previous year were as follows:

Investments in securities correspond entirely to fixed-income bonds with defined maturity and officially listed in organised markets. The reasonable value of these securities is based on current bid prices in an active market, credit risk being its maximum exposure.

The investments in investment funds sold in the financial year 2021 produced a positive result of 440 thousand euros (35 thousand euros in the previous year), which was recognised in the income statement as gains or losses on sales of financial instruments.

The movement for both financial years in investments has been:

	Deuda Pública	Renta fija privada	Fondos de Inversión

12.1.1. Debts that can be converted into grants, donations and legacies

The balance of debt convertible into grants, donations and legacies corresponds to the amounts still to be used for their intended purpose of the reimbursable grant awards of which EDUCO is the beneficiary. When they become non-repayable, they are transferred to profit for the year in correlation with the expenses incurred for the subsidised projects. The final non-repayable consideration depends on the final review by the funding entity of the supporting documentation for justifying the project's implementation.

The movements in the current and previous year in grants from public and private funders were as follows:

Subvencionador	Saldo a 1/1/2021	Concesiones	Bajas	Traspasos entre largo y corto plazo	Traspaso a resultados (ver Nota 17.3)	Diferencias de cambio	Saldo a 31/12/2021

They refer to guarantees and deposits received from property leases and suppliers to guarantee the successful delivery of the contracted services.

12.2. Other creditors

The breakdown for this heading at the end of both financial years is as follows:

	Saldo a 31/12/2021	Saldo a 31/12/2020
Beneficiarios, acreedores	4	41
Acreedores por prestación de servicios	1.466	1.549
Total	1.470	1.590

The balance for the end of both financial years for Beneficiaries, creditors mainly refers to monetary aid pending payment for development agreements agreed at the end of the corresponding financial years which have been paid during the first few months of the following financial year.

The following is the information required by the Resolution of 29 January 2016 issued by the Spanish Accounting and Audit Institute (ICAC in Spanish), concerning the information to be included in the notes to the financial statements about the average period of payment to suppliers in commercial transactions. This information refers exclusively to the commercial transactions of purchase of goods and services carried out by EDUCA, as a Spanish taxable entity, and therefore, excludes any purchases and balances pending payment from its foreign branches.

	2021 Días	2020 Días
Periodo medio de pago a proveedores	18	40

Total	381	91	(17)	(65)	-	21	411

13.1.Benefit obligations Bangladesh

According to labour regulations in Bangladesh, staff who have been working for longer than a year have the right to compensation once their contract is terminated for any reason, except if there is fair dismissal, of 30 days of salary per year of service, depending on seniority and reason for leaving (Gratuity Fund). In the event that an employee dies while carrying out their job, their legitimate heirs will be entitled to receive a benefit from this fund depending on the type of death.

The Bangladesh Finance Act 2020 provides for tax exemption for amounts received by employees only if the lump-sum provision is deposited in a government-approved account or fund. Therefore, from July 2021 (start of the 21-22 financial year), EDUCAO Bangladesh's contributions will be deposited in a specific bank account linked to the fund.

13.2.Benefit obligations Philippines

According to the Philippines labour law, staff who have worked for more than 5 years have the right to a compensation payment of 15 days of salary per year of service, with a fraction greater than 6 months counting as a full year, provided that their contract is terminated between the ages of 60 and 65, the latter being the age of mandatory retirement.

Due to the legal requirements in the Philippines, provisions for long-term employee benefits to the branch's employees have been calculated based on an actuarial study of its employees considering their corresponding personal data and work records. For the other branches, EDUCAO records a provision for long-term employee benefits calculating the amount accrued individually for each employee under a maximum payment scenario according to their employment situation and seniority, excluding potential events and circumstances that could affect the provision if an actuarial calculation were made.

13.3. Benefit obligations Nicaragua

In Nicaragua, labour regulations (law no. 185 of the Labour Code, article 42) establish that at the end of service for staff on an open-ended employment contract have the right to 1 month of salary for each of the first 3 years of seniority and 20 days of salary as from the fourth year of seniority, paying the proportional fractions of the year, and with the benefit being no less than 1 month and no more than 5 months.

The EDUCAO branch in Nicaragua records this obligation as a provision for severance pay on the basis of one month's salary for each year of service.

13.4. Benefit obligations Bolivia

According to Bolivian labour regulations, staff with a fixed-term or permanent employment contract are entitled, after 90 days of continuous employment, to one month's salary for each year of employment, or proportionally to the months of employment when a full year has not been reached. The basis for calculating compensation is the average of the total amount earned in the last three months, or the average of the last 30 days for workers on daily wages.

It is a mandatory requirement to record the provision for future severance payments as established in Article 3 of Supreme Decree No. 11478 of 16 May 1974 (in force), which stipulates that employers must make their reserves for the payment of social benefits on a mandatory basis and in order not to immobilise these amounts and which was ratified by the Ministry of Labour in its Supreme Decree No. 110/2009 and Ministerial Resolution 447/2009.

13.5. Benefit obligations India

According to Indian labour regulations (Gratuity Act 1972), organisations with 10 or more employees are required to compensate staff with more than 5 years of continuous service with 15 days of basic salary for each year of employment, irrespective of the reason for the leave.

Since the 2015 financial year, EDUCA's branch in India has had more than 10 employees on its payroll and is therefore obliged to acknowledge this benefit in its financial statements. At the date of preparation of the annual accounts, the number of staff at the end of the 2021 financial year was 11 (11 at the end of the 2020 financial year); therefore, this provision continues to apply.

13.6. Benefit obligations Guatemala

According to Guatemalan labour law, in the case of unjustified dismissal, employers have the obligation to pay their employees and workers, or their beneficiaries in case of death, a compensation equivalent to one month's salary for each year of employment, and if it is less than one year, it must be paid proportionally, as established in Articles 82 and 85 of the Guatemalan Labour Code.

The EDUCA branch in Guatemala records this obligation as a provision for severance pay on the basis of one month's salary for each year of service.

14. OWN FUNDS

The movements in the entity's accounts containing its own funds for the current and previous years are detailed in the Full statement of changes in equity which forms part of these financial statements.

Given its nature as a foundation and non-profit status, EDUCA does not own social capital or, consequently, any shares or any other security that represents its equity.

Details of the items comprising the endowment fund at the end of the financial year and their date of contribution are shown below:

Concepto	Importe	Año	Datos

By agreement of Educo's Board on 19 October 2018, and with the due knowledge of the Protectorat de Fundacions de la Generalitat de Catalunya, three premises were removed as endowment assets, identified as numbers 1 and 2, 2 bis, and 9, located in Barcelona, in calle Pujades 77-79, 4th floor, for a value of 366 thousand euros, the same amount for which they were assigned, and it was decided to assign as

endowment assets, for an amount of 4613 thousand euros, the property located in Barcelona, calle Guillem Tell 47, which is the current EDUCA head office.

Once the minimum mandatory application to foundational purposes has been met (see Note 18), and as established in article 333-2.1 of Law 4/2008, the surplus is subject to the obligation to apply it to the deferred fulfilment of the foundational purposes, or to the increase of the foundation's own funds.

15. FOREIGN CURRENCY

The amounts for assets and liabilities items denominated in foreign currencies for which no provision for impairment has been recognised, correspond to the financial statements of the branches, and to other financial assets, denominated in foreign currencies, detailed in Note 11.

The amounts in foreign currency corresponding to the assets and liabilities of the branches in their respective transactional currency, at the end of the current financial and the previous one, amount to:

EDUCA orders foreign currency transfers in the country of origin, subject to the official exchange rate of the currency requested being accepted in Spain, this way avoiding exchange rate differences in the country receiving the funds between the amounts requested and the amounts received. Of the currencies detailed in Note 5.7, only the US dollar (USD) and Indian rupees (INR) were accepted at the official rate, EDUCA thus ordering transfers in these currencies in both years.

For the rest of currencies not accepted at the official exchange rates, EDUCA orders transfers in euros, which are then translated into local currency once they are received by the country in question.

In addition to the transfers mentioned above, ordered for the provision of funds for the execution of projects in the countries EDUCA operates in, transactions in foreign currency related to financial investments are also made.

The total amounts from transactions ordered at the country of origin in foreign currencies, for both the delivery of activities and the acquisition of investment products, in both financial years amounts to:

16. TAX SITUATION

According to the current legal provisions, tax assessments cannot be considered final until they have been inspected by the tax authorities or the limitation period, currently set at four years, has elapsed. EDUCA has the last four financial years open for inspection for all taxes applicable to it. In the opinion of the Board, there are no significant tax contingencies that could arise, in the event of inspection, from possible different interpretations of the tax legislation applicable to the transactions carried out.

16.1. Tax on profits

EDUCA has calculated the income tax expense by determining exempt and non-exempt income, in accordance with the provisions of articles 6 and 7 of Law 49/2002 of 23 December, on the tax regime for non-profit organisations, a regime to which EDUCA is subject (see Note 5.8) and Royal Decree 1270/2003 of 10 October, which implements the aforementioned Law. In accordance, EDUCA generates exempt or non-taxable income in the tax calculation, resulting in a tax base of zero.

16.2. Value-added tax

EDUCA, as a non-profit organisation, carries out non-taxable transactions (without consideration) in accordance with Articles 4 and 5 of the Value-Added Tax Act 37/1992 of 28 December 1992 and the applicable legislation in the counties EDUCA has branches in.

Therefore, Spain and most of the branches abroad (except Benin, Burkina Faso and Nicaragua which are exempt or can recover this indirect tax) cannot deduct and register value added tax that appears on invoices from its suppliers and creditors as a major expense, except for input and output VAT relating to the economic activities of leasing of its own buildings (see Note 8), sponsorship activities and those related to the preparation and sale of educational material and training activities that take place outside the permanent establishment.

16.3. Information concerning transactions with financial assets abroad

According to the terms set out in Article 42 bis, ter, and 54 bis of Royal Decree 1065/2007 approving the General Regulations on steps and procedures in tax management and inspection matters, and implementation of common rules governing tax application procedures, obligations are set out regarding the supply of information concerning assets and rights located abroad. This information is detailed in the following Notes to the financial statements:

- Note 7 regarding the breakdown of real estate located abroad, owned both by EDUCA, as a Spanish entity, and its different branches.
- Note 11.3.1 regarding to term deposits abroad.
- Note 11.3.2 regarding the rights to guarantees and deposits given on contracts for operating leases carried out abroad by EDUCA branches.
- Note 11.5 regarding the information about accounts in overseas financial institutions, both non-resident bank accounts opened by EDUCA and bank accounts for which the different branches are account holders.

In accordance with current Bank of Spain regulations (Circular 4/2012 from April 25 regarding on rules for the reporting by residents in Spain of economic transactions and the balances of financial assets and liabilities abroad), for the financial years 2020 and 2019 EDUCO has declared for 2021 and 2020 it's account transactions with non-residents and the balances, including any variations, of real estate assets and bank accounts abroad as an entity resident in Spain (excluding the assets belonging to the branches as these are entities resident in their respective countries).

17.11. Expenses derived from the performance of the governing body's duties

The costs incurred by EDUCA's Board during the current financial year amount to 13 thousand euros (58 thousand in the previous year), all of which correspond to representation and tax, legal and accountancy consultancy costs. The trustees have not received any remuneration for the performance of their duties either this year or the previous year.

EDUCA has never granted any loans to the members of the governing body, nor has it contracted any life insurance in their favour.

17.12. Costs derived from senior management

EDUCA regards senior management as the members of the Executive Committee. The remuneration for the provision of services of a working nature for the people that make up the Executive Committee in the current financial year has amounted to 541 thousand euros, and there have been no compensation costs (400 thousand euros in the previous year).

The Executive Committee in 2021 is made up of 7 members (7 members in 2020), 4 women and 3 men. During this financial year, there have been no changes in this Committee with an annual total equivalent to 84 months, i.e. 7 full salaries for the whole year.

EDUCA does not contract nor has it contracted life insurance in their favour, nor have the people that occupied or occupy this position been granted loans.

17.13. Audit fees

Under the heading "Independent Professional Services" from the heading "External Services" under "Other operating expenses" in the income statement for the 2021 financial year an amount of 112 thousand euros (101 thousand euros in 2020) is included which refers to the fees of the external audit of EDUCA and its branches.

19. OPERATIONS WITH RELATED PARTIES

In Note 3.3. there is a list of the entities that EDUCAO considers related entities, and the type of relationship with each one is described.

19.1. Balances with related and associated parties

At the end of both financial years there were no balances with associated entities. The balances on the balance sheet with other related entities at the end of each financial year amount to:

	31/12/2021		31/12/2020	
	Deudor	Acreedor	Deudor	Acreedor

19.2. Transactions with related and associated parties

EDUCAO finances development projects implemented by its associated and related entities in accordance with an annual operational plan approved by EDUCAO's directors and validated by its governing body through the approval of its annual budget.

The transactions carried out by EDUCAO with these entities in the financial year basically consist of periodically sending funds or delegated payments on behalf of the beneficiary entity. The sum of the aid granted during the current financial year and the previous one to these entities are broken down in Notes 17.5.2, 17.5.3 and 17.5.4 depending on the nature of the relationship.

19.3. Transferral of funds to branches

In the same way as the related entities, EDUCA's branches need to be sent funds regularly in order to fund and carry out their foundational aims. The same procedure described in Note 19.2 for related entities that execute projects is used for branches of the delegation described in Note 3.1.

In order to finance the annual operational plan of executing branches, validated by Management and endorsed by EDUCA's governing body, 24,172 thousand euros have been transferred in 2021 and 20,338 thousand euros in 2020, from Spanish bank accounts to bank accounts belonging to the branches abroad, to cover the operational needs of the branches and the execution of their cooperation projects.

20. GUARANTEES RECEIVED

There are no guarantees received at the end of 2021.

21. CONTINGENT ASSETS AND LIABILITIES

There are no unrecorded contingent assets and liabilities in EDUCA's financial statements at the end of this financial year and the previous one.

22. SUBSEQUENT EVENTS

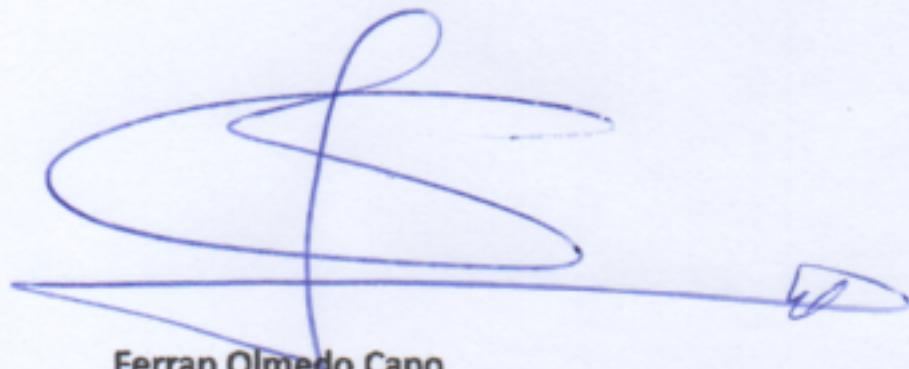

No significant events have occurred between the balance sheet date and the date these financial statements were approved that need to be mentioned.

The FINANCIAL STATEMENTS for the 2021 FINANCIAL YEAR have been prepared by the trustees of Fundación Educación y Cooperación (EDUCO) in the meeting that took place on 23 May 2022, authorising the Chair of the Board and the non-trustee Secretary Mr. Don Ferrán Olmedo Cano on signing all of the documents which make up the financial statements:
